Basic Rolls & Tiles

Everlast Basic Rolls & Tiles are the "original" recycled rubber fitness floor. This durable surface offers easy and fast installation in a virtually seamless appearance that is ideal for cardio areas and ice rinks.

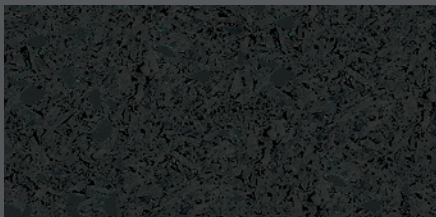

Product Options

- Product Key 8mm, i23, 6mm, 9mm
- Product Type Rolls & Interlocking Tiles
- Thickness: 8mm, 6mm, 9mm
- Dimension: 8mm: 48" (1.22m) x 25 linear feet (7.62m) OR 50 linear feet (15.24m)
i23: 8mm x 23" x 23" (58cm x 58cm) interlocking
6mm: 48" (1.22m) x 25 linear feet (7.62m) OR 50 linear feet (15.24m)
9mm: 48" (1.22m) x 25 linear feet (7.62m) OR 50 linear feet (15.24m)

UltraTile®

(Patent No. 6,623,840)

Designed with a patented “ultra” wear layer on a molded base to provide unlimited design options, UltraTile is a beveled, footed tile ideal in all types of weight rooms, because of its noise and shock absorption qualities. This 2-foot by 2-foot (61cm x 61cm) by 1-inch tile is modular and offers a 15-year warranty.

Product Options

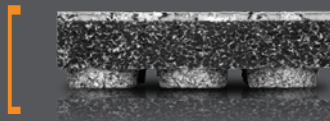

- Product Key UT
- Product Type Tiles
- Thickness: 1" (2.54cm)
- Dimension: 24" x 24" (61cm x 61cm)

UltraTile Benefits

- Patented “ultra” high-density wear layer
- Slip resistant
- 2 installation options
- Force Reduction = 50%
- Energy Restitution = 48%
- Vertical Deformation = 3.7mm
- Acoustics: IIC=49, STC = 51, Delta IIC = 27

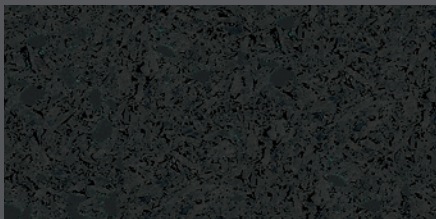

Wear Layer: Slip resistant, colors/logos, force distribution

Can a floor do more? Yes.

Since 1871, Ecore has been transforming reclaimed materials into performance surfaces that make people's lives better. What started with simple cork closures has evolved into a diverse portfolio of products solving complex problems in applications ranging from playgrounds, weight rooms, and turf fields to hospitals, hotels, and retail environments. We are driven everyday by a simple question, "Can a floor do more?" At Ecore, we believe the answer is "YES." We are building our company and the products we offer based on the simple notion that floors should elevate beyond current expectations. Our energy is focused on the interaction

between people and the surface. We engineer performance well beyond industry standards related to acoustics, ergonomics and safety. Harvesting the unique power from a myriad of waste streams, Ecore creates products that align—substantial force reduction with a balanced amount of energy restitution to create dynamic surfaces that are tailored to the individual and the application.

Players will fall... we will be there to catch them! Athletes will over train... we will let them keep going! Deadlifts will sound like thunder... we will quiet the noise!
