

Experience The Difference

Put an end to continual headaches associated with dangerous tile and poured floors.

Installing Eco-Grip will provide a safe, high performance and waterproof environment that will stand the test of time.

Slip Resistant

Aggressive floor surface texture provides the safest work environment for your staff. (coefficient of friction; dry 1.31 | wet 1.06)

Hygienic

Built-in micro-biocide prohibits growth of bacteria and mildew.

Durable

Specifically designed for the harsh environments of commercial kitchens.

Anti-Fatigue

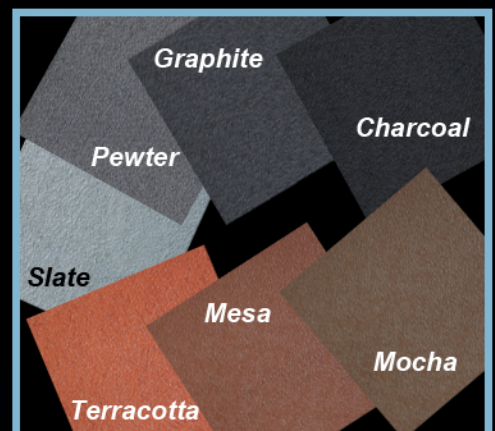

Improves staff morale by eliminating the aches and pains associated with working on a hard surface.

Easy To Clean

Eco-Grip resists grease, animal fats, cooking oils, chemicals, odors, stains, and weather exceeding OSHA and ADA requirements.

Versatile

Chemical and grease resistant, puncture proof, flame retardant, waterproof, while able to be installed over an existing surface.
